Ok. Focus is always on cleanup matters, but we can mention the community engagement init. and, or the CAC because HQ is familiar with those.

Do we know if any of the Admin's visit will include HCAO?

Donn - this was for the Administrator's Houston visit on 10/19; they asked for a specific limited format (not exceeding 1/2 page) as described below, so the content included in previous fact sheets had to be reduced to fit; the CAC was included, but any additional details would require deleting something else.

9549142

Gary, will this include the recent update on CAC activities. Is this the same thing we did for Sam recently?

---

Hello all,

The Administrator will be in Houston next Friday (10/19) to speak at the "America's Energy Future U.S. Energy Revolution" Conference. The following is a description of the event and a list of speakers:

Houston, Texas is the undisputable "Energy Capital of the World." For decades, Houston has been the leader in the development and utilization of all available energy sources. Houston's innovative and growing energy sector ensures an affordable and secure energy supply – as well as the vibrant workforce it demands.

As America faces its growing energy challenges, energy experts continue to focus on the country's and the world's short and long-term energy needs, including the talent needed to ensure advancement. Please join the Greater Houston Partnership to hear from leading experts – including EPA Administrator [Lisa Jackson](#), Texas Railroad Commissioner [Barry](#)

[Smitherman](#) and ExxonMobil President [Rich Kruger](#).

Speakers also include:

[Michael S. Card](#), First Vice Chairman, American Trucking Association

[Tony Chase](#), Chairman, Greater Houston Partnership

[The Honorable Gene Green](#), US House of Representatives (TX-29)

[The Honorable Pete Olson](#), US House of Representatives (TX-22)

[Roger B. Plank](#), President & CCO, Apache Corporation

[Doug Schlegel](#), Vice President, Human Resources, Shell Oil Company

[Marshall Schott](#), Associate Vice President for University Outreach, University of Houston

Please email me any hot issues regarding this event by **Monday, 10/15, COB**.

Just a reminder, the format for hot issues for the Administrator is the following:

Issue:

Background/Status:

Message: 2-3 bullet points

Contact: Division Director Name, Division, Phone number

Should not exceed half a page.

Here's an example from her Port Arthur Visit:

**Issue:** BASF Fina Petrochemicals LP, Port Arthur, Texas

**Background/Status:**

BASF Fina Petrochemicals LP (BFLP) applied for a GHG PSD Permit on March 15, 2011. The application was deemed complete on June 17, 2011. The draft permit went to public notice from April 26, 2012 to May 26, 2012. We did not receive any public comments nor a request for a hearing. The permit has not been issued due to questions raised by the National Oceanic and Atmospheric Administration (NOAA) and the National Marine Fisheries Service (NMFS) in regards to the biological assessment. Additional information was requested from the source. Recently the source has submitted information to EPA that should address these issues.

**Message:**

- BFLP is being issued a GHG PSD Permit in the near future.
- NOAA/NMFS have expressed concerns on potential impacts to marine species.
- The Permit will limit the GHG emissions of the new facility to 915,542 tons per year of CO<sub>2</sub>e.

**Contact:** Carl Edlund, Director of Multimedia Planning and Permitting Division, 214-665-8124
